

Welcome to Remote Learning

No matter what phase of learning our school is in during the year, our Remote Learners will follow this protocol:

- When your student's class is learning online (Distance Learning or Hybrid), your student will be learning online with them. This requires consulting your [Class Resource Page](#) and following the schedule.
- When your student's class is in person, on campus, (Hybrid or 5 Day In Person Learning) your student will be Remote Learning, which involves watching a live stream of the classroom and consulting Google Classroom for materials and assignments. This requires clicking your Main Lesson teacher's Live Zoom link also found on your [Class Resource Page](#).

Remote Learning Instructions:

1. Go to the Zoom Room of the Main Lesson Teacher (regardless of who is teaching)
2. Remain in that one Zoom Room as Main Lesson and Subject Teachers teach all day between 8:30 - 3:15 (unless instructed by the teacher to leave and do asynchronous work).
3. Remain on screen and on camera, but also remain muted until directed to un-mute by the teacher.
4. Follow along and work as if in class, in person.
5. Check Google Classroom each day for materials, assignments and other teacher communications.

Questions and Office Hours:

If your student needs support outside of class time and daily Zoom Room interaction, their teacher will encourage them to contact the Remote Learning Coordinator. This coordinator will work with the teachers, students and families directly and is available to provide more in-depth attention.

The Remote Learning Coordinator is our very own Miss Olga. Students and parents can speak and receive assistance from Miss Olga by appointment.
